

Alice Roof Tiles manufactures, sells and fixes an impressive range of concrete roof tiles for the domestic and commercial markets, providing a total roofing solution including the supply of fascia and gutter and metal roofing products.

The series of profiles and tiles are designed and manufactured in an extensive colour range to complement the Australian environment and offer long lasting protection.

Alice Roof Tiles provide a wide range of colours and accessories such as ventilators and skylights to complement our range.

Alice Roof Tiles are manufactured from natural materials, therefore subtle variations in colour and surface finish may occur. Through exposure to the ultra violet rays of the sun, the glass polymer coating applied to new tiles will take on a matt appearance. All colour photographs in this brochure are as accurate a representation as the printing process and inks will allow. We recommend sighting an actual tile prior to final selection.

Alice Roof Tiles are tested and approved by a NATA registered laboratory.

We are Quality Assured to International Management System AS/NZS ISO 9001:2000

OUR RANGE SELECTOR

WARRANTY

Alice Roof tiles are guaranteed against structural failure of the body of the tile for seven years

We specialise in a supply and installation service, and assure you of quality product and efficient and cost effective delivery and installation.

Alice Roof Tiles personnel have a reputation for personalized and superior customer service and we would welcome the opportunity to provide an estimate or a tile sample to assist you in completing the selection of the external aspects of your project.
